Parts Manual
Engine Manual
Warranty

Bowie's Victor 1100 is available as a trailer, gooseneck or skid model. The *Bowie Victor 1100* is the choice for intermediate hydro-mulching jobs. The gooseneck makes hauling and maneuvering much easier and provides additional area for hauling the product to be sprayed. The skid model can be mounted on your own equipment, and the trailer model can be towed with a standard hitch.

For more production and less time loading, this size unit is head and shoulders above other similar machines. With the *Bowie Victor 1100*, you can go up to 600 lbs. of mulch per tank load and spray with a hose or from the deck using the ergonomic discharge cannon. The large access opening to the tank allows for easy and quick cleaning. The *Bowie Victor 1100* also features controls on the deck which can be used for ground level operation.
